## Let's Share!

1. Bella made 18 chocolate chip cookies. If Katie wants to share the cookies evenly between herself and her two brothers, how many will they each get?
2. If Katie's ballet lesson starts at 3:00 and goes for an hour, when is the lesson half over?
3. Three friends earn a total of \$6.00 by bringing in trashcans. If they split the money evenly, how much will each person get?
4. If 60 cupcakes are going to be shared by 30 people, how many cupcakes will each person get?
5. Katie invites 20 stuffed animals to her piano recital. She can fit 4 guests on each chair. How many chairs will she need?
